Fintech Association of Sri Lanka (FASL)

- *Project Lead* — *February 2026 - Present*

British Council

- *Season Exam Invigilator* — *May 2025 - November 2025*

PROJECTS

- Built QDomains, a domain marketplace platform that allows users to browse and purchase domain names. Developed using JavaScript and HTML.
- Developed and deployed OrantaHolidays, a functional holiday/travel website. Learned cPanel hosting and website deployment from scratch and successfully hosted the website live. Built using HTML, CSS, and JavaScript.
- Completed 7+ university projects, taking leadership responsibilities across multiple teams and coordinating members to successfully deliver projects ranging from hardware-based IoT systems to full-stack web applications.
- Member of NetRunners, a competitive technology team that secured victories at Intellicon'25 and the Microsoft Mini Hackathon, collaborating on problem-solving, software development, and technical challenges.
- Developed an AI-powered Voice-to-Task Reminder Application, integrating speech-to-text, task/time extraction, reminders, and calendar-based functionality to simplify task management.
- Developed a Smart Greenhouse IoT System using an ESP32, DHT22, LDR, soil-moisture and ultrasonic sensors, with automated control of a water pump, fan, and lighting system.
- Worked on DentAI, an AI/healthcare-oriented platform designed to connect patients, doctors, administrators, and pharmacies through an integrated digital system.
- Developed web and software projects using technologies including JavaScript, HTML, CSS, React Native, Java, Python, C, databases, and IoT technologies, gaining practical experience in both software and hardware development.

ADDITIONAL EXPERIENCE

- Self-learned and integrated Google Analytics for website performance tracking
- Hands-on experience with version control (Git/GitHub) across team and solo projects
- Applied SEO fundamentals and responsive design principles across client websites
